There is a noticeable difference in the manner in which motorists now traverse Maumee streets. The pace of many is so steady and majestic as to be almost funeral. There's some danger that they may get run over by a nurse girl with a baby cab. It is satisfying, however, to see that some folks realize a "little jay town" has some rights which they are bound to respect.—Maumee Advance-Era.

It's different in Perryburg, Bro. Pomeroy, and if you desire to see the real thing in speed you should come over and tarry with us a few hours on Sunday. In the morning a hundred or more motorcycles will rush through town with throttles wide open, while auto drivers from Toledo and other towns use Front street for a race track, driving bicycle riders on the sidewalk for safety.

Perryburg offers splendid attractions for speeders.

News that the United States Supreme court is actively engaged in catching up with its business, now being only two years behind and having bright hopes for the future, will delight those who go to law and some who do not.

Grafting is now traced back to the time of the early Egyptians. It is more than likely that the social philosophers among the early Egyptians found it quite an ancient practice in their time.

It's too bad that most women lack a keen sense of humor, else they could have a ripping good time over those new men's hats—the green ones with the dinky bows at the back.

There is reason to fear that less than 12,000,000 American cooks have read the 12,000,000 cook books issued by the government.

According to reports the silk manufacturing business is no longer a textile trade, but a mining and smelting business.

It is predicted that women will some day sweep the streets of New York. Long skirts again?

## PASSING OF PIONEER.

In the death of Mr. Archibald Rider, of Tontogany, on Wednesday evening, May 28, 1913, there passed away one of the pioneer citizens of Wood county, and one of the first men to drive a locomotive over the rails of the Dayton & Michigan railroad.

Mr. Rider was born in Monroe, Orange county, New York, Feb. 10, 1833.

He was united in marriage with Miss Adella McGarrath, who preceded him several years ago. They were parents of four children, Charles, Francis, Archie, Jr., James and Grace, all of whom are living except Archie.

For many years Mr. Rider had been living on a farm just outside of the village of Tontogany, where he was well and favorably known and from which home his funeral was held on Saturday morning last.

Mr. Rider was a very interesting gentleman, his mind being very active up to the day of his death, and his experience as a locomotive engineer during the early days of railroading in this state, also in the south during the rebellion, were subjects of much interest to those with whom he was pleased to speak of those days, when it needed nerve as well as ability to pull a train over any of the railroads.

In his departure his family loses a devoted and lovable father, and his neighbors a friend and one whose memory will long be revered among those who knew him.

Mr. Rider was a member of the Masonic order and his funeral services were conducted by the members of Tontogany lodge.

## BALDWIN FOR CONGRESS

Boom Started for Wood County Common Pleas Judge.

Judge Frank A. Baldwin, of the Common Pleas bench of Wood county, who resides in Bowling Green, is being groomed for the congressional race, and is regarded as a very strong candidate for that honor from the new Thirteenth district, so the report from Bowling Green states.

Well, since we very likely will have a Democrat for that office, we know of no man in the district who would more ably fill the position.

He's "all wool and a yard wide" in every respect.

## TRADE AT HOME.

An individual who has some pride in the prosperity of the town in which he lives, aptly observes that men or women should never send a dollar away when the article the dollar will purchase can be obtained at home. Money is our financial blood. Its circulation keeps the business body alive. Bleed that body by sending money away and business will soon put on a look of lethargy. Always trade at home. Read the advertisements in the Journal and spend your money with the merchant who invites you to come to his store.

## WINS LIBEL SUIT.

By the decision of the supreme court of Ohio just given the verdict for damages which Judge E. M. Fries, of this city, received in the Wood county courts against the Wood County Free Press and others is affirmed. Under ruling the Free Press company will have to pay Judge Fries \$400; Earl D. Bloom, its editor, will have to pay \$300, and Earl Helfrich, its business manager, will have to pay \$100. The libel suit arose as the result of certain articles published in the Free Press during the campaign of 1908, when the plaintiff was a candidate for re-election to the common pleas bench. The Free Press ceased publication a year ago. Its dissolution as a company had been granted by the court and its property is in charge of E. D. Bloom as receiver.

## TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Journal readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

Mrs. Caroline E. Walters, Sixth and Cherry Sts., Perryburg, Ohio, says: "I have no hesitation in confirming the public statement I gave several years ago, telling of my experience with Doan's Kidney Pills. The cure they made in my case has been lasting. I had sharp pains in my back and shoulders and when the attacks came on I could hardly get up from a chair. Dizzy spells and headaches were common and I was miserable in every way. Hearing that Doan's Kidney Pills were good for such trouble, I tried them and they gave me prompt and positive relief. After using this remedy I felt like a different person, being able to sleep and eat well and having no pains or aches."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

April 21, 1913

The Lowe Brothers Company advertisement in the March "Good House" keeping Magazine" (that I see they also had in the April "A. P. O. D.", though not in color) had a tremendous influence on me. It showed a street scene on one side of which was a row of unpainted, ordinary-looking houses, and on the other side of the street were well-painted, fine appearing houses. The heading read, "Which side would You Choose for Your Home and Neighborhood?"

At that time I was planning on buying a home, and in making my selection I was greatly influenced, though unconsciously, by the Lowe "ad." But I went even further than the "ad" suggested. I wanted to get into a neighborhood where the houses were well painted and well kept. I found that property is more valuable in such a neighborhood. Even the lots are worth from 10 to 25 per cent more, but they are worth it. Living in such a locality increases one's self-respect, and gives him more confidence. Painting is an investment in character. It makes one more orderly. To live among clean, neat, orderly things, affects the mind. It takes on the character of its surroundings. A logical mind cannot long exist in an untidy topsy-turvy environment.

A pin broke the other when a high officer in a big corporation was trying to put several papers together. He picked the little sticker up, found that it served his purpose just as well, although an eighth of an inch of it was gone. A little rapid figuring, a call to the pin manufacturers, and soon it was found that several hundred dollars a year would be saved if that concern used pins a little bit shorter than those it had been using. The following week the shorter pins began to arrive, and the economical officer felt he was doing a great favor to the share holders by keeping down expenses.

## Remembering the Departed

The establishment of Decoration Day, which occurs this month, as a holiday devoted to the remembrance of those who have gone, is most commendable. Still you must not forget the duties you owe to yourself.

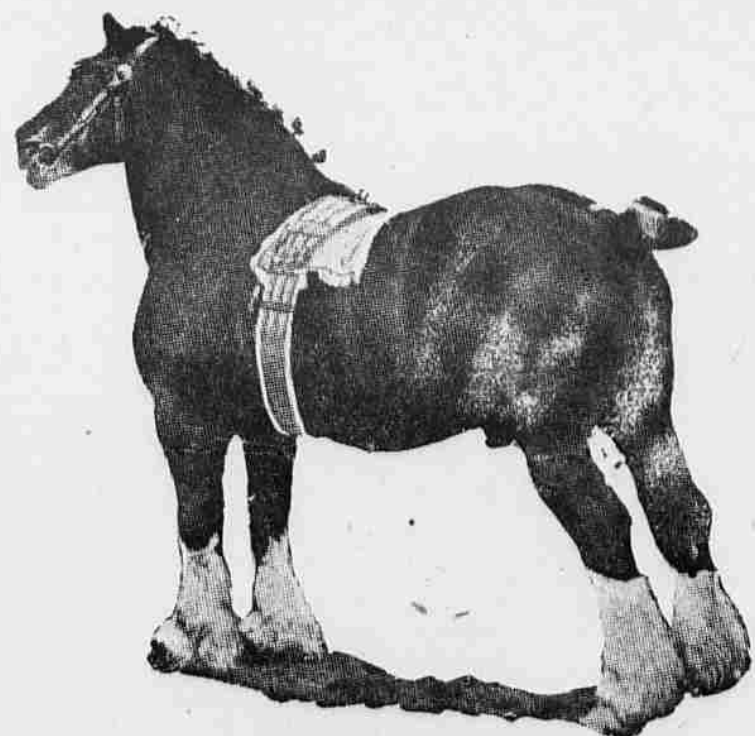

If you are going to buy lumber this Spring, remember that you can always do a little bit better here than you can anywhere else, both in quality and price. We are prepared to fill all orders, large and small and serve you promptly.

## Imported Draft Horses

## EMPEROR AVECHURCH

I have on my farms 2 1-2 miles west of Perryburg, on the River Road, a very fine assortment of imported, registered Belgian and Shire mares and stallions.

The mares are all with foal from high grade registered English and Belgian Stallions. They are all very nicely acclimated and are as good breeding stock as can be found in the country.

## Combination Riding and Driving Horses WELSH PONIES

I also have some combination riding and driving horses which took prizes at the CHICAGO HORSE SHOW last November. Also some very fine WELSH PONIES with English harness and carts.

All of these are offered for sale at very low prices, considering the high quality of the stock.

Also have a smaller type Shire Stallion. Fee, \$12.00.

W. J. LEWIS

Lewis Manor Farms, Perryburg.

They are strongly built, heavily muscled, wide of chest, clean flat bone, and all-round prime blooded stock.

There are none better for breeding purposes.

It costs no more to raise good stock than common grades. Therefore why not have the best.

To appreciate the beauty, weight and strength of these animals you must see them on the farms.

The STALLIONS (Belgian and Shire) will be for service until sold. FEE \$20.00 to insure.
